Evening Programs:

Every night after dinner, Golan has an evening program to close out the night. Campers get to participate in a new activity each night!

Pokemon Go

Staff dressed up as Pokemon characters and hid around camp. Each cabin was challenged with the task to find the staff members before another cabin did!

Overnight

Golan had a blast building a fire and cooking their own dinner on the beach. They got to choose from various toppings to create their unique foil packs. The staff told campers stories and jokes and then ended their night look at the stars in Hammock Village.

Scavenger Hunt

Golanies were given a list clues to decipher. The clues led to places around camp where they would find their counselors!

AREA SPOTLIGHT:

Golan loves going to the swim dock. We love wrestling on the trampoline and competing who has the best jump of the dock!
